AnaNichoola are supporting Velo Jam because they believe racing needs to be more accessible to women.

Cycle racing is a hard, fun activity that chimes neatly with their "Style Your Ride" campaign. Herne Hill is the Company's local venue and holds both nostalgic and sentimental value with the brand.

AFTER RUNNING COACHING SESSIONS AND RACING FOR YEARS THEMSELVES, THE MULEBAR GIRLS SAW THAT THERE WAS A DESIRE FOR HIGH LEVEL TRACK RACING TO BE MADE MORE COMPETITIVE AMONGST WOMEN, AND GRASS ROOTS TRACK RACING TO BE MADE MORE ACCESSIBLE.

INSPIRED BY LOCAL FESTIVALS AT THE HERNE HILL VELODROME, SUCH AS THE DAVE CREASY MEMORIAL AND GOOD FRIDAY, THE GIRLS CREATED

10 years ago nuun created the first hydration tabs and have gone on to tell the world that there's a smarter way to hydrate than with sugary sports drinks. nuun offers the world's best-performing electrolyte tablet in a unique and innovative way. They have recently re-branded and taken the chance to introduce 5 new flavours to make 11 total including strawberry lemonade, grape and lemon tea.

MuleBar believe there is no energy like natural energy which is why MuleBar is made from 100% natural, seriously tasty ingredients. It all started on Cerro Aconcagua in the Andes, pretty high up at about 6200m where founders, Jimmy and Alex, had a lot of problems with their stomachs, unable to find food you can eat and digest easily. So they invented MuleBar!

TZG are consulting structural engineers located in Croydon Surrey. We carry out a large spectrum of work in the UK and Europe ranging from multi-million pound buildings to items of furniture.

filles a velo was set up in 2010 by Leigh Marshall. Initially it was started as a blog that would hopefully help to inform about women's cycling in the UK.

Since it's conception it has grown in popularity. Recently finding itself in need of some expansion and slight modification. It has now evolved into a website and brand, that aims to support and promote women's cycling and racing across all disciplines regardless of performance level, throughout the UK (including Ireland).
